

AMENDMENTS TO THE SPECIFICATION

Please amend the specification as follows:

Amend the abstract as follows:

The stretch tape of the present invention for eyelid facelifting is stuck ~~[[in]]~~ between eyes and near ~~both~~ inner corners of eyes, or ~~beside and~~ near the outer corner of each eye, enabling facelifting which makes the eyes look slitter and brighter by stretching the skins of eyelids by the stretch tape. ~~[[Said]]~~ The stretch tape is tapered so that ~~[[said]]~~ the stretch tape points the inner edge or the outer edge of the eye. The stretch tape of the present invention for nose facelifting has a shape of an inverted character U or ~~an inverted character V~~, the top portion of the inverted ~~character U or the inverted character V~~ shape is stuck to an upper portion of the nose in between eyes, and both foot portions of the inverted ~~character U or the inverted character V~~ shape are stuck at both sides of the hillside portion of the nose, so that the stretch tape stretches the hillside portion of the nose toward a head. ~~The stretch tape of the present invention for beautification and facelifting is stuck on a surface of a skin so that wrinkles on the surface of the skin is stretched and fixed, wherein said stretch tape is made of a base material consisting of urethane nonwoven fabric on which an acrylic adhesive material is applied thickly to the thickness of 35grams per square meters or more.~~
